

The International School of Tucson is a non-profit entity and as such is governed by a board of Trustees. The Board is entrusted to provide governance and long-term strategies of sustainability. To that end, it seeks the expertise of its parent community as well as the greater community it serves. All members work toward one over-arching and supremely important purpose-the education of children for a global community.

It is our obligation to keep all stakeholders informed about the school finances so that all stakeholders understand how the school functions. The school, in 2017 – 2018, took slightly over \$2 million in income. This income can be seen in the first chart.

In the second chart you can see how this was spent. The school is currently in a good balanced situation with a positive cash flow.
